

CIO Command center to transform IT Spend into business value

Gain near-real-time visibility, map spend to services, eliminate renewal leakage, and reinvest savings into modernization.

CIO Challenges with IT Spend

- Fragmented data across ERP, procurement, HR, and cloud systems results in unreliable reporting & delays.
- Missed cost savings and renewal leakage from decentralized contract management.
- Shadow IT and duplicate spend reduce governance & increase risk exposure.

The Altios Solution

Altios ITFM Platform unifies IT financial data across systems to deliver end-to-end spend visibility, optimization insights, and actionable intelligence.

95%+

IT spend mapped to business services.

>98%

reconciliation accuracy across data sources.

40+

hours/month* saved on data consolidation and reporting.

Ingest

Connect ERP, procurement, HR, and cloud cost data.

Map

Attribute spend to services, leaders, and contracts.

Analyze

Identify waste, duplication, and variance.

Act

Drive savings, reinvest intelligently, and automate governance.
