

SOW SERVICES SPEND MANAGEMENT

End to End Tracking
of your SOW services
SPEND

Across your Total Workforce

The PROBLEM

World-wide Organization's have moved towards leveraging external talent due to cost control pressures that led to more SOW-based projects.

Companies do not have visibility into that SOW projects which significantly hampers

- Project Delays
- Budget Overruns and
- Strategic agility.

Lack of SOW spend data is challenging Executives in smooth functioning of the organization and resulting in

- Poor decision-making
- Improper forecasting and
- Failure to manage risk

This lack of visibility can lead to

- Unchecked costs
- Reduced profitability and
- Potential regulatory non-Compliance

80%

organizations intend to increase the use of Flexible workforce

40%

Contingent workers out of the Total workforce

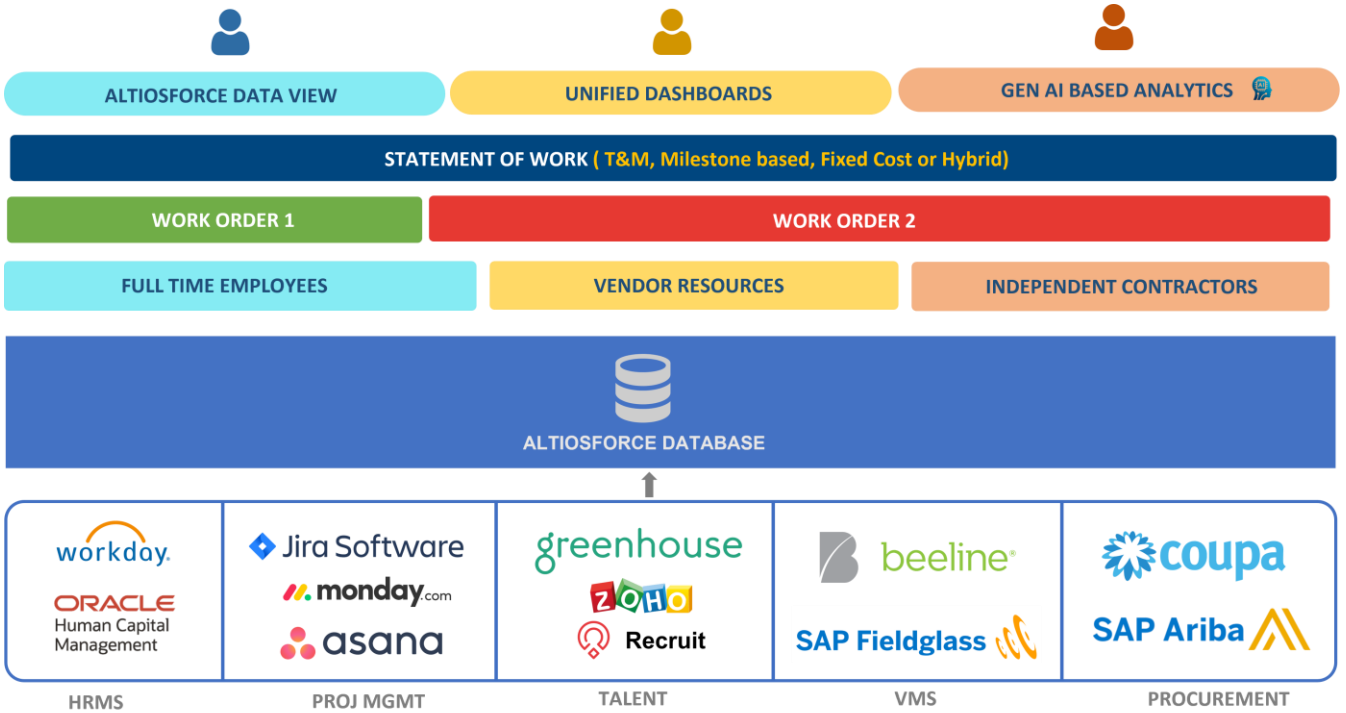

30%

Procurement spend goes towards Contingent workers
